MEMORANDUM FOR THE RECORD

SUBJECT: Fiscal Year 1962 Budget Item - Cost of Moving CIA Personnel into New Headquarters Building and into New Locations Within the Headquarters Area for Personnel Not Moving to New Building

1. The Bureau of the Budget questioned the inclusion in the CIA Budget Submission of funds in the amount of \$500,000 for the move into the new building on the basis that GSA is responsible for moving offices in the headquarters area. Mr. Ellington also stated that it was his understanding that the General Services Administration had made adequate provision for necessary moves in their budget. A careful review of our budget submission indicated that \$700,000 had been included in the CIA Budget Submission for this purpose, \$500,000 for the move into the new building and \$200,000 for the relocation of personnel in the headquarters area.

2. Mr. Weatherwax, Deputy Budget Officer of GSA, stated that provisions had been made in their budget and that this Agency could be assured that GSA would finance the move of all CIA personnel either into the new headquarters building or to other new office space in the headquarters area. An inquiry as to the amount included for this purpose was responded to by a statement that GSA had an overall budget of \$178,000,000 which would include these items and that based on the State Department experience, moving office and related space of a million square feet would cost approximately \$200,000.

3. Based on the above assurance obtained from GSA, Mr. Ellington was informed that we would not object to the deletion from the CIA Budget of these specific items.
